I hereby fully and freely consent to my participation in this study.

I understand the nature and purpose of the procedures involved in this study.

I understand and acknowledge that the investigation is designed to promote scientific knowledge. I understand that personal information collected during the study may be looked at by individuals from the University of Bristol, regulatory authorities or the funding body of the above study. I give permission for these individuals to have access to personal information under conditions of confidentiality.

I understand that the anonymised study data collected for this study may be used in future research projects but that the conditions on this form under which I have provided the data will still apply.

I agree to the University of Bristol keeping and processing the personal information that I have provided during the study. I understand that my consent is conditional upon the University complying with its duties and obligations under the General Data Protection Regulation (GDPR) and the Data Protection Act (DPA) 2018. I also understand that after the study, anonymized study data will be made available as "open data". This means the anonymized study data will be publicly available and may be used for purposes not related to this study. I also understand that these data will be anonymised and it will not be possible to identify me from these data. I understand that my screening data will also be anonymised and stored securely by the study team, but will not be made "open" (i.e., publicly available). I also understand that my personal data (e.g., name, email address) will be retained separately by the research team for one year after the end of data collection, after which this information will be destroyed. At that point I can no longer withdraw my data as the link between my identity and my study data will have been destroyed.
